

STILTSVILLE. THE VANGUARD'S PEARL-WHITE TRUCKS ARE CLOSING THE PERIMETER.

REYA: "PLUG IT IN, AXEL! OVERRIDE THE INTERCEPTOR MODULE AND KEY THE NITRO!"

NO MORE GAMES. VANCE WANTS THE PROTOTYPE, BUT HE'S GOING TO HAVE TO CHASE US INTO THE MAINLAND.

**WE BURST THROUGH THE SHACK WALLS. NO MORE
STEALTH. NO MORE COMPLIANCE.**

VANCE: "UNIT 404 IS RUNNING A HIGH-SPEED BREACH. PUSH THEM TO THE BRIDGE GAP."

**THE BAY BRIDGE IS BROKEN. A HUNDRED FEET OF
NOTHING BETWEEN US AND THE MAINLAND.**

AT 80 MILES PER HOUR, THERE'S NO ROOM FOR DOUBT. ONLY THE NITRO IN THE TANK AND THE HARDWARE IN THE DASH.

**WE FLY. PURE KINETIC ENERGY, SPITTING SMOKE
AND MAGENTA FLAMES.**

VANCE: "HOW... HOW DID HE CLEAR THAT GAP?"

**THE VANGUARD TRUCKS AREN'T BUILT FOR
VELOCITY. THEY PLUNGE INTO THE ABYSS AS THE
ROAD RUNS OUT.**

REYA: "DIRECTOR VANCE JUST LOST THE RICKENBACKER. HE'S IN THE WATER."

**WE HIT THE MAINLAND. THE WORLD RETURNS TO
SOLID, GRITTY ASPHALT.**

UNINSTALLERS. WELCOME TO CUTTER'S RUN.**
